

OUTSIDE PLANT / AERIAL DROP CABLE SUPPORT

Drop Cable Tension Clamp

CPX-DTC

Tension support for flat mini figure-8 drop cable with a messenger wire.

**Matched cable profile**

Designed for the specified $5.3 \times 2 \pm 0.2$ mm flat mini figure-8 cable.

Lightweight construction

Nylon PA6 body with a stainless-steel clip; nominal assembly mass of 35 g.

Defined load values

600 N operating tensile load and 1,200 N pre-break tensile strength.

KEY SPECIFICATIONS

Specification	Details
Cable type	Flat mini figure-8 drop cable with messenger
Cable dimensions	$5.3 \times 2 \pm 0.2$ mm
Body material	Nylon PA6
Metal clip	Stainless steel, AISI 201 or higher grade
Mass	35 ± 5 g
Operating tensile load	600 N
Pre-break tensile strength	1,200 N
UV test reference	ASTM G154-16
Packing	500 pieces per package; cardboard carton
Marking	Logo or product identification

APPLICATION FIT

Match the cable profile and installation load to the clamp before selection. Operating load and pre-break strength are distinct values.

Practical product support. Personal service.
