

DC BATTERY BACKUP

ONT DC Mini UPS

CX-1202UPS-6000mAh

Compact backup for one compatible 12 V ONT, modem or gateway. An optional qualified DC Y-cord supports a second compatible device within the same shared output limit.

Specification	Details
DC input	12 V DC / 3 A
DC output	One 12 V DC output / 2 A maximum
Maximum output power	24 W total; shared when using a Y-cord
Battery configuration	6000 mAh; 18650 rechargeable lithium-ion cells
Approximate dimensions	110 × 60 × 25 mm
Installation	Tabletop or wall mounting using rear provision
Protection functions	Overcharge, over-discharge, overvoltage, overcurrent and short circuit
Runtime	Validate with the actual equipment and complete connected load

Confirm voltage, polarity, connector dimensions and startup behavior with the actual equipment. Runtime varies with load, battery condition and charge state; no fixed runtime is specified. Continued internet service also requires the operator network and other essential equipment to remain operational.
