

TELECOM FIELD SUPPLIES

Installation and Maintenance Supplies

Fastening, fiber care and identification for field crews and repeat supply programs. ComponexX coordinates product selection, packaging and documentation.

Industrial cable ties

Nylon ties and mounting accessories. Specify bundle size, tensile strength and indoor or outdoor exposure.

Banding and buckles

Stainless steel banding and matching buckles. Select grade, width and thickness for the installation.

Fiber cleaning and protection

Connector cleaners, cleaning kits and splice-protection sleeves matched to the connector and splice.

Identification and marking

Ask about cable markers, warning labels and outdoor asset-tag options. Define data, mounting and exposure.

Quote by part number or application

Send a part number, photo or specification with quantities and delivery location. We help define product options, samples and packing for your material list.
